

Shri Sachhidanand Shikshan Sansthas
Taywade Institute of Diploma in Pharmacy
Inst. Code: 0767

Training & Placement Cell

Training & Placement is an integral part of the institute. The institute has provided complete infrastructure for effective functioning of the cell. The aim of institute is to give 100% employment to all the students. After completion of practical training of 500 Hrs at pharmacy. TIDP helps students to acquire post of registered pharmacist at various pharmacies.

Functions of T& P:

- T&P cell carries out following function in order to educate & update the student to ensure their placement.
- Guest Lectures: Eminent professional technocrats either from academics, industry, sells and other professions are routinely invited for disseminating their expertise in the field of pharmacy and to develop skill of students & also to prepare students for interview by various personality development guest lectures.
- Hospital & Industrial Visit: To train the students for practical upgradation & hospital administration, two industry & hospital & pharmacy visit are made compulsory for diploma students. During these visits, students are exposed to actual industry, hospital & pharmacy work environment.
- Placement: Placement is a important edge between the completion of academic program & employment. The T&P cell helps the students to secure jobs by organizing campus interviews for placement of pharmacist. The T&P cell also recommends the name of students to various pharmacy owners who recruit pharmacist.
- Counseling for Higher Studies: The T & P cell provides counseling which gives student a safer place where they can explore issues regarding their further studies. The T & P cell encourages students for higher studies like B. Pharm, B.Sc, and Nutrition Science etc.
